

**RAMSADAY COLLEGE,
AMTA, HOWRAH-711401**

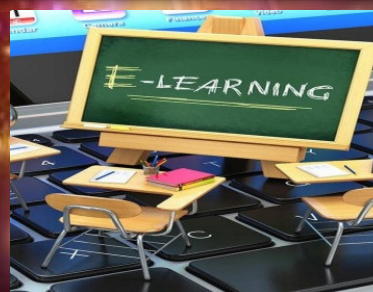

**DEPARTMENT OF PHYSICS
IN COLLABORATION WITH IQAC
IS ORGANIZING A ONE DAY WEBINAR
ON**

**ONLINE TEACHING AND LEARNING
-STRATEGIC INSIGHT INTO PHYSICS**

Date and Time: 31st August 2020, 3.00 PM

SPEAKER:

Prof. ANANDA DASGUPTA
*Associate Professor
Department of Physical Sciences
IISER Kolkata, India*

SPEAKER:

DR. TILAK SINHA
*Assistant Professor
Department of Physics
Narasinha Dutt College*

CONVENORS:

**Mr. Abhoy Mondal,
Mr. Sampad Mondal,
Dr. Sudipa Upadhaya**

ONLINE PLATFORM:

GOOGLE MEET, YOUTUBE LIVE

Registration is Free

Link:

<https://forms.gle/DvFmdtsV87CKARn7>

Contact Details:

**Phone No. +918240713848
+918609076072
+919830727538**

E-mail-physrc1946@gmail.com

E-Certificates will be provided to all the registered candidates at the end of the Webinar .

A One Day Webinar on

Online Education : The Future Strategy : Some Physics Insights

Department of Physics, RAMSADAY COLLEGE

Amta, Howrah-711401

A child, as soon as is able to stand on its feet, looks beyond its own World to step outside. This is the eternal human spirit driving the human race from the past coming to the present and leading to the future. As the present and the recent future stands plagued with the COVID-19 pandemic, Governments are implementing measures that limit the number of people congregating in public places. Such measures have disrupted the normal functioning of schools and Universities. It is likely to continue in some countries for a certain time until a vaccine becomes available - leaders of public and private educational Institutions have put in place alternative methods for students and teachers to continue with their lessons when attending schools and colleges is not possible and are working on methods that will make education run in a safe environment.

Necessity has always given the impulse to widen our reach and look beyond. This impulse has, in fact, extended our vision beyond the classroom. By the process we could access the World wide database of information through our computers with internet connection. This has added a new leaf to the traditional classroom teaching model. With the advent of communication technologies, online education has taken high leaps in sharing knowledges and ideas, both from theoretical as well as experimental point of views. True we miss here the presence of grand classroom of Science College or the vast Baker Laboratory along with face to face close interaction of eminent personalities.

But could we stop a while to think whether this gradual switch-over helped us to widen our reach to the World of education by slowly but steadily looking beyond the traditional offline model. The concept of traditional education has changed radically within the last couple of years. Nowadays, you have access to a quality education whenever and wherever you want. The revolution

of online education in the realm of the present situation is completely preferable for the dependence of online teaching & learning. Physics is a practical based subject and our aim is to discuss the future strategies of teaching and learning processes for such a genre.

Talking of the reasons of implementing online technology as an effective and efficient mode of education, the primary ones that immediately crop up to our minds, are :

1. It's flexible.

Online education enables the teacher and the student to set their own learning pace, and there's the added flexibility of setting a schedule that fits everyone's agenda. As a result, using an online educational platform allows for a better balance of work and studies, giving rise to more autonomy and flexibility.

2. It offers a wide selection of programs.

In a space as vast and wide as the internet, there are infinite skills and subjects to teach and learn. From quantum physics to music composition, there are options for every category of students. A growing number of Universities and higher education schools is following the pattern.

3. It's accessible.

Online education enables you to study or teach from anywhere in the World. Not only do you save time, but you also can adjust your preferred time and in a way save money. The virtual classroom is also available anywhere provided there is an internet connection. Online interviews in this regard are pretty much popular.

4. It allows for a customized learning experience.

Online education is also flexible for each student's individual requirements and level of ability. This way a better understanding and communication can be established in terms of uploaded lecture notes and videos.

5. It's more cost-effective than traditional education.

Online education seems to be more affordable. There is often a wide range of payment options that lets you pay in installments or per class. This allows for better budget management. In addition, there is always scope for availing scholarships. Better communication and sharing class materials for free, makes lives even simpler .

Well, let us welcome all to join and examine the issue in greater detail.

Tentative Schedule:

Topics maybe:

- 1. Detailed discussion of physics teaching and learning strategies as alternative modes of education in future.
.....Resource person is not yet decided.***
- 2. Ways to relate the theoretical and experimental sections of Physics in online teaching & learning processes.
.....Resource person is not yet decided.***

Date: Third week of August (25th),

Time: 3 PM-5.30 PM

Online Platform: Google Meet

Organizers:

***Mr. Abhoy Mondal, Mr. Sampad Mondal, Dr. Sudipa Upadhaya
& Department of Physics, Ramsaday College.***

One day Webinar on
“ONLINE TEACHING AND LEARNING - STRATEGIC INSIGHT INTO PHYSICS”
Organized by
Department of Physics in Collaboration with IQAC, Ramsaday College.

Date & Time : 31st August 2020, 3.00 PM

Program Schedule

First session

1. Introduction to the webinar: 3 minutes (3:00pm–3.03pm)
2. Address by Debkumar Mukherjee (Principal) : 3 minutes (3:03pm–3.06pm)
3. Address by (IQAC coordinator): 3 minutes (3:06pm–3.09pm)
4. Address by HOD, Physics : 3 minutes (3:09pm–3.12pm)

Second session

5. Introduction to 1st speaker : 3 minutes (3:12pm–3.15pm)
6. 1st lecture : 1 hour (3:15pm–4:15pm)

Speaker : Dr. Tilak Sinha

Title: Emerging Paradigms in Education as a Fallout of Covid-19

Abstract: The outbreak of the pandemic is catalyzing a paradigm shift in education that was perhaps long overdue. It is being brought about by the indispensability of digital medium in teaching. For the teacher, it does not just mean having to learn to connect to his students all over again but to learn to embrace a new way of thinking about his role in the new picture. In this talk, I try to address some possible scenarios, and some strategies to adapt to them.

7. Questionnaire : 10 minutes (4:15pm–4:25pm)

Third session

8. Introduction to 2nd speaker : 3 minutes (4:25pm–4:28pm)

9. 2nd lecture : 1 hour (4:28pm–5:28pm)

Speaker : **Dr. Ananda Dasgupta**

Title: Open source and low cost approaches to the online physics teaching

Abstract: In light of the current pandemic, imparting of education by the online mode has become imperative on the teaching community. We will discuss some ways in which several of the obstacles in this may be reduced by making use of low cost and/or free software. We will also try to discuss some possible methods for imparting much needed practical training under the present circumstances.

10. Questionnaire : 10 minutes (5:28pm–5:38pm)

11. Thanking the speakers : 2 minutes (5:38pm–5:40pm)

12. Valedictory session : 5 minutes (5:40pm–5:45pm)

Dept. of Physics Ramsaday College <physrc1946@gmail.com>

Aug 30, 2020, 1'

to sampad100, aranya.ag, Pradiptakar2001, souravbhatta99, subratamondal6242, satabdimondal08, sudeshna.dhww.physics, Karatirupai,

Dear Participant,

We are delighted to welcome you to the **One-day Webinar** on,**'ONLINE TEACHING AND LEARNING
-STRATEGIC INSIGHT INTO PHYSICS'****organized by****Department of Physics in collaboration with IQAC, Ramsaday College**, scheduled today at **3:00 PM**We request you to kindly log-in **10 mins** prior to the allotted time to avoid early rush. Please keep your **microphor** smooth connectivity throughout the webinar.Kindly note that we have a separate **questionnaire session** at the end of each lecture. It would be helpful if you p the chatbox. We will try our best to convey the maximum number of queries to our experts. In case, you have any more questions **email us**.**The google meet link is:** <https://meet.google.com/fgj-btyc-zxk>**The link for live youtube streaming is :** https://youtu.be/50ki_eLLnog
